

Toilet Paper Tube Frog Craft

Materials

- Toilet paper tube
- Approximately 20 inches of yarn/string
- Leg and wing template (on this page)
- Glue
- Stapler
- Small rock/button

Legs

Insect Wings

1. Color or paint the toilet paper tube, frog legs, and insect wings. Draw and color eyes on one end of the tube, or use googly eyes.
2. Pull the piece of yarn or string through the tube. Leave 3/4 of the yarn out of the tube, this end will become the the frog's mouth. Staple the opposite end of the tube shut, making sure the yarn is secured in place.
3. Cut out the legs and glue the four legs onto the frog.
4. Tie a small rock or button to the end of the string.
5. Cut out the wings.
6. Glue the insect wings to the rock/button.
7. Feed the frog! Have fun trying to toss the insect into the air and catch it in the frog's mouth.
