

# AFTERSCHOOL PROGRAMMING

Audubon offers a wide range of environmental education programs in afterschool settings. Experienced Audubon educators can bring nature discovery, science, live animals, and tons of fun to your location.

For more details and online registration, please visit: <https://bit.ly/EdProgramsRegistration>

## Interactive Science Programs

Audubon's one-hour science investigations are interactive, hands-on programs featuring life science topics. These programs may correlate with themes that students study in science class, but the activities are modified to engage 20 to 30 students in an afterschool setting. Many of these programs include a live animal presentation.

- Fee: \$160 per one-hour program.
- For afterschool settings serving a range of ages, we recommend offering two programs to ensure developmentally age-appropriate activities: Grades K–2 and Grades 3–5.
- For questions or concerns, please contact Michelle Solis, Program Registrar at [msolis@asri.org](mailto:msolis@asri.org) or 401-245-7500 x3014.

### Multi-week Audubon Explorers

Audubon educators lead outdoor explorations in a schoolyard or local park near your location. Students discover first-hand the animals and plants found in their neighborhood. Offered on a limited basis in fall and spring only.
